TOP 5 MOST ATTENDED EDUCATION ZONE SESSIONS

- Powering North America's Data Center Boom
- Energy Solutions for Prime, Back-up & Microgrids
- Catering to Data Center Power Generation Needs: "A-La-Carte" to a Holistic BTM solution
- Dispatching Backup Generators at Data Centers to Protect Electric Grid Reliability
- Powering AI: The Rise of Hybrid Substations for Data Centers

TOP 5 MOST ATTENDED CONFERENCE SESSIONS

- Future-Proofing Onsite Generation for Data Centers
- Clearing the Air: The Current and Future State of Carbon Capture
- [Artificially] Intelligent BESS: Leveraging the Power of AI to Improve Efficiency and Reliability
- Building America's Next Nuclear Reactor
- Utility Perspectives on Onsite Power

A Tour of the Industry

2026 Technical Conference Program

In 2026, we introduced 13 topics offering a distinctive chance to delve into the latest advancements in the power generation industry by organizing insights, innovations, and leaders from decarbonization to artificial intelligence.

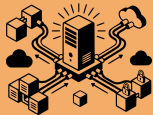

Decarbonization

**Operations &
Maintenance**

Gas Turbines

Load Growth

Nuclear

Solar

Battery Storage

**Emissions &
Environmental**

Onsite Power

**Engineering &
EPC**

**Artificial
Intelligence**

Hydropower

**Policy and
Regulation**

TOP THEMES

A Tour of the Industry

CARBON CAPTURE & EMISSION CONTROLS

- **Clearing the Air: The Current and Future State of Carbon Capture**
- **Unlocking Carbon Capture for Power Producers: Practical Pathways to Investable Decarbonization**
- **Designing the Future: Powering Datacenters via CCGT + CCS Projects**
- **Bioenergy and Waste to Energy with Carbon Capture and Storage in the U.S.**

Featured Speakers

- Ben Gurtler
- Jake Kramer
- Holly Krutka
- Devin Shaw
- Matt Boisine
- Mathew Davidsaver
- Bryan Lofgreen
- Sunil Vyas
- Satish Reddy
- John Gilmartin

NUCLEAR'S EVOLUTION

- **Building America's Next Nuclear Reactor**
- **From Policy to Projects: Unlocking Nuclear Energy's Next Chapter**
- **Molten Salt Reactors: Natura Resources' Blueprint for Abundant Energy, Clean Water and Lifesaving Medical Isotopes**
- **Behind the Issues of Behind-the-Meter Power**

Featured Speakers

- Ian Van Houten
- Betsy Brunner
- Jhansi Kandasamy
- Jordan Robison
- James Brown
- Mark Gake
- Scott Tjaden

TOP THEMES

A Tour of the Industry

ONSITE POWER & FLEXIBLE GENERATION

- **Future-Proofing Onsite Generation for Data Centers**
- **Utility Perspectives on Onsite Power**
- **Energizing Data Centers: Strategies for Reliability, Rapid Deployment and Advanced Load Management**
- **Power in 90 Days: Fuel Cells for Rapid Industrial Expansion**

Featured Speakers

- Jennifer Cahill
- Jake Bissell
- Jeff Joyce
- Derek Silbaugh
- Joshua Brooks
- Kaushal Bilgiri

ALL ABOUT THE GAS TURBINE

- **Reliable Retrofit Upgrades for the U.S. Gas Turbine Fleet**
- **Key Contract Considerations in Gas Turbine Purchase Agreements**
- **State of the Gas Turbine Fleet: Unlocking Upgrade Value**
- **It Takes a Village: Pragmatic Solutions for Reliable Electrification and Load Growth**

Featured Speakers

- Gilbert Shupe
- Jeff Benoit
- Jason Yost
- Mary McVeigh
- David Wu
- Colleen Rimlinger
- Kevin Jensen
- Ben Wolfe

WHAT ATTENDEES HAD TO SAY:

POWERGEN has been really helpful in identifying the industry scale of what's going on behind the scenes, and how that affects each and every one of us across different divisions, levels, and inputs in the industry itself [...] That's something not everybody gets to experience at other conferences.

Sarah White
Associate Electric Co-op, Inc.

The most valuable part of POWERGEN is networking with peers, walking the exhibit floor, and seeing all the activity and energy across the industry. For me, the level of engagement is a strong indication that the future of this industry is in a good place, and I'm excited to be representing this event.

Raj Katamreddy
Vistra

I love the networking. Everyone who's part of POWERGEN is here, and it's great to collaborate, meet new vendors in the market, see who's doing what, and learn about the projects that are happening. It's a great place for intel.

Sarah Hoelzen
The Williams Companies, Inc.

WHAT EXHIBITORS HAD TO SAY:

POWERGEN is really important to us. It's an ideal opportunity to come meet existing customers and partners, meet new customers and partners, and showcase the new products that we bring to market.

Sarah Nicholls
STAMFORD | AVK

POWERGEN gives us the opportunity to meet prospective engineering firms, EPCs, and customers, and to share insight into our capabilities in manufacturing centrifugal pumps and supporting the nuclear industry.

Santosh Kulkarni
ANDRITZ

POWERGEN allows us to connect with all of our peers and it brings in folks that are maybe not quite familiar with everything in power, and they get to come to one place and see it all in one place and make new connections.

Sammy Haggard
Wildcat Power Gen

SOCIAL MEDIA BUZZ

Excited to officially share my next chapter:

This week marks the beginning of my role at **Direct Wire** - Regional Sales Manager, Mid Atlantic. With nearly 20 years of experience in the world of portable power distribution, cable and wire, I am energized to connect with my new customers and help them tackle their biggest challenges.

My first week was marked by our stellar exhibition at the **POWERGEN** 2026 show in San Antonio. I am thankful to be amongst a terrific and welcoming team of experts, as well as all past experiences that have brought me to this point in my career.

Thank you to everyone who stopped by our booth at **POWERGEN** this week! We had great conversations with teams across the full spectrum of power generation, from traditional coal-fired plants to the fast-growing world of AI-driven data centers. I hope everyone was able to make it home safely following the winter storm from this weekend. We're excited to keep the momentum going and support your projects in 2026.

I also want to give a sincere thank-you to **Pete Warner** for making the trip and supporting our team throughout the event. His presence highlighted the value of being up and engaging with our customers directly.

Todd Gibbs and 1 other

That's a wrap! We had an absolute blast in San Antonio at **POWERGEN** 2026. Looking forward to seeing everyone in **SLC** next year!

Brandon Mueller is back from **POWERGEN** with a renewed appreciation for the work energy providers do to serve communities. His conversations reinforced something we see every day: modernization isn't just about new technology—it's about execution, coordination, and trust.

From grid reliability to digital transformation, the challenges are complex but solvable with the right approach. We're excited to keep partnering with utilities and energy organizations to turn innovation into action. Thanks to everyone who shared time, insight, and perspective. And a special thank you to **HOLT Industrial Systems** for hosting the amazing after-party!

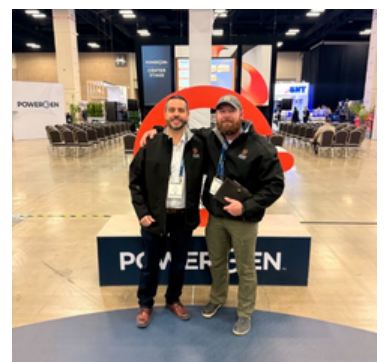

Let's keep the conversations going!

Roxtec USA, Maddox Industrial Transformer, Everlink, Hillfort

#energy #utilities #gridreliability #modernization #ITmodernization

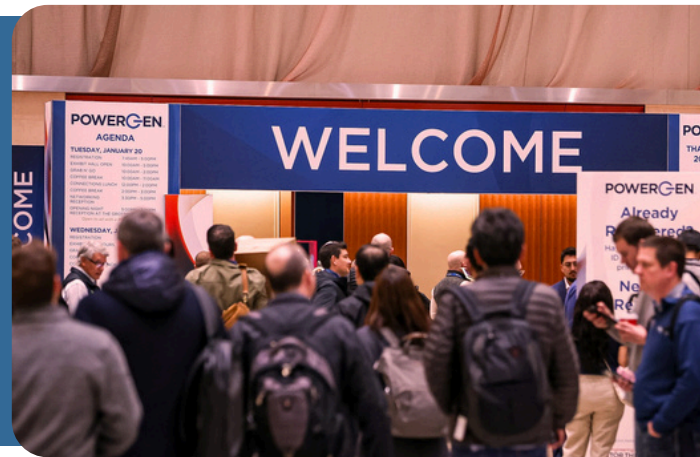

House party. Great to be with friends and colleagues at **POWERGEN** in San Antonio for a little celebration honoring our speakers and panelists participating in the utility-scale renewables track. Foreground and photographer, my colleague Matthew Grylicki, PE, and Caroline Boecher, PE, with Westwood Professional Services, and Matthew Robinson with Arizona Public Service - APS, in the background...Emily Critchell, PE, with The AES Corporation, Jonathan Cairns with Elevate Renewables, Jordan Sapp with Revamp Engineering, Inc., Jimmy Jackson with Terracon, and our good friends Chronicle Heritage. I'm in there somewhere, and that is not a bottle of fine bourbon in my right hand, just Texas tea. Kevin Clark and Gabriella Cecere, the two of you stopping in was a highlight of my evening.
